MATH CHALLENGES SPEAKER PELOSI.

by

Dennis J. Wall

Over half of the House Democrats have announced in favor of impeachment. *See, e.g., Time magazine [here](#).*

Speaker Nancy Pelosi previously said that would never happen, that there would never be a majority of her party in the U.S. House in favor of impeachment, no way. *Watch the PBS Newshour video and listen to the audio [here](#).*

Speaker Pelosi also said that four certain Members of Congress, newly elected in 2018 all, have no following.

Every one of the Four is for impeachment. Right now.

Math challenges Speaker Pelosi.
